**SECTION IV - Jelly Roll Morton Library of Congress recordings on Circle records**  
**625.** This is the set of famous recordings of Jelly Roll Morton conducted by Alan Lomax in the  
late Spring and early Winter of 1938. In 1947, Rudi Blesh issued 200 sets of these recordings  
on his Circle label. There are 12 Albums and 45 records (90 sides). All records and albums  
are E+ with the exception of Vol. 5 which has water damage to the back cover.  
This affects the liner notes (some wording is missing) and the last sleeve of the album (which  
is damaged). The record (jm-39/jm-40) is not damaged except for the label of jm-40, which is  
missing. The title listing is below and is sequential by record number. The records themselves  
are red vinyl (not shellac). **These are offered as a complete set (please use #625 to bid  
on). If you would like a list of each title by record, please let me know and I will provide.**
